GOVSTRAT STATEMENT OF QUALITY ASSURANCE

WHAT SEPARATES OUR SERVICES FROM THAT OF OTHERS

Learners at each of our workshops will benefit from the knowledge and expertise of leading international, regional and local corporate governance expert practitioners, board governance facilitators and leading academicians. Our Learning Facilitators/Consultants have in-depth knowledge and working experiences (in excess 100 years cumulatively) across the Caribbean and on Four (4) Continents while having obtained specialised and world-class education and training. They bring local governance case studies, video-clips, critical references and case laws to bear while comparing these with “best-in-class” global practices. At GovStrat, we do not apply “one size” governance model to fit all. We believe each Organisation and Leader (in the public or private sector) is unique and requires specialised attention whether through our public/advertised or bespoke learning and consulting interventions. GovStrat has the experience of training more than 7,500 Directors, Senior Managers and Government Ministers in more than twenty countries.

HIGH IMPACT STRATEGIC/CORPORATE PLANNING WORKSHOP

COURSE OVERVIEW:

In today’s business environment, strategic planning and performance have never been more important. Yet research shows that many leaders and managers either don’t plan at all or lack the ability to develop the plans necessary to move their organizations from its current state to where they want it to be.

High Impact Strategic/Corporate Planning is about creating a preferred future for your organization. In this course, you will learn how to use a four-part strategic planning model used by thousands of business leaders to improve their organizational effectiveness. The model utilizes a three-year planning model developed by Dr. Vindel Kerr and supported by the Balanced Scorecard methodology developed by Kaplan and Norton (2001), and other important planning tools for ongoing performance management and evaluation. Specific references will be made to existing models used by successful Governments and private enterprises in their strategic/corporate planning approaches. Unfortunately, with no generally accepted and standardized approach in some institutions, a wide array of approaches can be found even within a single governmental domain.

Strategic performance management in which information on agency or program performance is used to assess government and private sector effectiveness and to hold managers accountable while managing for results, is now a globally relevant goal or function of most governmental and non-governmental organizations. This workshop will provide an overview of performance management systems, including their objectives, design, and basic components and requisites for effective functioning. In addition, through interactive discussions and case illustrations, workshop sessions will elucidate the practical details of how the set-up and implement a performance management system and its potential to improve efficiency and program or organizational performance.

Part 1: Strategic Formulation

During the Strategic Formulation Phase, leaders formulate the key components of their strategic plan by framing the Values, Vision, Mission, Goals, Objectives and Strategies of the Plan. It is also necessary to clarify any changes in the business and financial models needed to support the Vision over the next three years and longer.

Part 2: Strategic Development

The Strategic Development Phase begins with an assessment of the internal and external environments. It requires formal data gathering to determine the opportunities and threats facing the organization and the identification and clarification of target customers, clients, markets and stakeholders. It also involves an audit of the internal environment to identify strengths or weaknesses taking into consideration leadership style, skills, staffing, systems, structures, appropriate strategies and what shared vision is needed. Several strategic tools will be introduced and explored in assessing the internal and external environments.

Part 3: Strategic Implementation

While Strategic Formulation and Development are about strategic choices and alignment, Strategic Implementation is about making it work. One of the best ways to do this is with the Balanced Score Card Approach which allows you to establish and monitor strategic objectives in four business-critical areas; finances, customers, internal systems, and learning and growth. It also allows you to set up timelines and metrics in each area to measure progress.

Phase 4: Strategic Evaluation

The success of any strategic plan rises and falls on the organization's ability to continually evaluate progress and make adjustments. In this model, we use the Balanced Score Card approach to set up a 90-day evaluation program for each department, team, or business area in order to continually monitor progress and make the quality adjustments necessary to respond to both internal and external changes.

WHAT PARTICIPANTS WILL GAIN

During the Strategic Development phase, leaders formulate the key components of their strategic plan by framing up the vision, mission, values, goals, and strategic objectives of the plan. It is also necessary to clarify any changes in the business and financial models needed to support the vision over the next three years.

- A thorough and permanent grasp of the 'Big Five' elements—Vision, Mission, Goals, Objectives and Strategies, and their interconnectedness
- Deeper insight and grasp on how to link corporate goals with individual performance objectives
- More in-depth knowledge on how to better able to lead their respective companies strategic planning processes
- Practical insights and ideas for increasing the successful outcomes of strategic planning initiatives such as data gathering, visioning, goal setting, implementation, and evaluation
- Common challenges and pitfalls associated with strategic planning initiatives and how to overcome both the human and organizational issues as they arise
- A proven strategic model which can be used in any size or type of organization to develop a three-year strategic plan
- Case-driven, practical, hands-on experience to sharpen your strategic planning skills
- A formal and practical review of the Balanced-Score Card methodology
- Participants will be able to improve current performance management models or design new ones to suit each unique industry or employee-category.
- Participants will be able to lead their organizations effort and coach teams around strategic performance management techniques and challenges.
 - 'Managing for Results' will be a key take-away from this Workshop—public sector entities on this path stand to gain significantly while private sector participants are bound to push the *Kaizen Management*

concept (continuous improvement) even a notch higher toward 100% productivity gains.

- Given the practical nature and hands-on approach to be employed in the delivery of the workshop, all participants will ‘get their hands dirty’ in coming up with tangible solutions to real problems of strategic performance management realities.

WHO WILL ATTEND?

- Presidents, CEOs, Managing Directors, General Managers, Production Managers, Heads of Departments, senior and middle-level managers in the private and public sectors;
- This workshop is also ideally suited for:
 - Strategic Planners/Corporate Planners, Performance Management Professionals senior executives, board members, private business owners who are contemplating the development of strategic plans;
 - human resource and administration professionals;
 - private and public institutions (Government Ministries, Departments and Agencies) with or contemplating the implementation of a Strategic Performance Management Plan and System;
 - Government leaders or managers responsible for strategic planning or strategic planning initiatives;
